

Promotion Stirrers and Shakers

Promotion Magnetical Stirrers

During the whole month of June you will receive **15% discount** on our **M2-D Pro and M3-D** stirrer in the complete set. So including **temperature sensor and support**. All stirrers come with two stirrer bars.

The **M2-D pro** is a stirrer with heating up till **340°C** with heating power of **500W**, adjustable constant stirring speed control up till **1500rpm** even during load change, maximum stirring capacity of **20 liters** and **LCD display** with warning messages.

The **M3-D** is a stirrer for high temperatures up till **550°C** with heating power of **1000W**, adjustable constant stirring speed control up till **1500rpm**, even during load change, maximum stirring capacity of **10 liters** and **LED display** with warning messages.

Please also consider our entry level model, the **M2-A** this is a stirrer with heating up till **340°C**, stirring up till **1500rpm** and a stirring capacity of **20 liters**, but without display and without the possibility of connecting an external temperature sensor.

Article	Description	Price	Promotion
22002013	M2-A, Analog magnetic stirrer hotplate.	€ 245,00	€ 232,75
22002063PM	M2-D Pro, Digital magnetic stirrer hotplate, including Support and Temperature Sensor.	€ 488,00	€ 414,80
22003013PM	M3-D, Digital Magnetic stirrer hotplate with glass ceramic plate, including Support and Temperature Sensor.	€ 502,00	€ 426,70

Promotion Shakers

During the whole month June you will receive **15% discount** on all our Digital **SKO-D XL** Shakers.

These digital shakers are available with:

- **SKO-D XL Digital orbital shaker** with clockwise and counterclockwise rotation. Maximum load of **7.5 kg**. Plate dimensions: **320 x 320 mm**. Stirring speed adjustable from **100 ... 500 strokes/min**.
- **SKO-D XL Digital linear shaker** shaking linear width 10mm. Maximum load of **7.5 kg**. Plate dimensions: **320 x 320 mm**. Stirring speed adjustable from **100 ... 350 strokes/min**.
- **SKO-D XL Digital 3D shaker** shaking three dimensional, rotating clockwise and anticlockwise. Maximum load of **5 kg**. Plate dimensions: **320 x 320 mm**. Stirring speed adjustable from **10 ... 70 rpm**.

All shakers have a Double LCD Display for speed and timer with shaking time adjustment from 1 min ... 20 hours or continuous. A RS232 interface for remote control and a maintenance free induction motor. Degree of protection: IP21. With 220V power supply.

Article	Description	Price	Promotion
22006013	SKO-D XL Digital orbital shaker	€ 825,00	€ 701,25
22006033	SKO-D XL Digital linear shaker	€ 825,00	€ 701,25
22006023	SKO-D XL Digital 3D shaker	€ 825,00	€ 701,25

* Platforms and accessories sold separately.

Promotion Stirrers and Shakers

Promotion Overhead Stirrers

During the whole month of June you will receive **10% discount** on our **AM20-D** and **AM40-D Pro** overhead stirrers.

The **AM20-D** is an overhead stirrer with **LED display** for digital speed control. Maximum **20 liters**. Stirring speed adjustable from **50 ... 2,200 rpm**. Max torque **40 Ncm**. Max viscosity **10,000 mPa.s**. Stirring power **50W**. Max shaft dia **10 mm**. Overload protection with Alarm LED and automatic stop.

The **AM40-D Pro** is an overhead stirrer with **LCD display** for digital speed and torque control. Maximum **40 liters**. Stirring speed adjustable from **50 ... 2,200 rpm**. Max torque **60 Ncm**. Max viscosity **50.000 mPa.s**. Stirring power **100 W**. Max shaft dia **10 mm**. Overload and motor protection with Alarm LED and automatic stop.

Both overhead stirrers have an IP protection rating of IP42. And a high pass through for stirring shaft for easier placement of sample container.

Article	Description	Price	Promotion
22005013	AM20-D overhead stirrer	€ 442,00	€ 397,80
22005043	AM40-D Pro Overhead stirrer	€ 775,00	€ 697,50

* Support and stirring shafts sold separately

Promotion MIX Mixer

During the whole month of June you will receive **10% discount** on our **MIX Mixer** Vortex mixer for test tubes.

With the following advantages:

- Speed control from **0 ... 2,500 rpm**
- Operation "Touch", with this setting the mixer starts when it is pressed onto, or continuous.
- With heavy and strong construction body.
- Silicone feet and steel base for high stability.
- Eccentric motor with oil free gears.

Article	Description	Price	Promotion
22008013	MIX Mixer Vortex for test tubes	€ 445,00	€ 130,50
